

# The GentleWave<sup>®</sup> Procedure

## Virtually Eliminates Aerosols

**STERILIZED  
PROCEDURE  
INSTRUMENT**

The GentleWave<sup>®</sup> Molar and Anterior/Premolar Procedure Instruments are pre-packaged, sterile, single-use and **eliminate cross-contamination**.

**MINIMIZED  
COVID-19  
EXPOSURE**

As a closed-loop system, the GentleWave Procedure has been shown to produce virtually no aerosols,<sup>1</sup> reducing the risk of exposure to COVID-19, giving you, your staff, and your patients **peace of mind**.

**ONE VISIT  
ROOT CANAL  
TREATMENT**

In most cases, the GentleWave Procedure enables a one visit root canal<sup>2</sup>. It **maximizes cleaning and disinfection** with minimal post-operative pain<sup>3</sup>.
